Active Intruder Response Training

October 4th 1:00-3:00

Safety is a top priority, and it's essential to be prepared for any situation. That's why Gig Harbor Self Defense is hosting the Active Intruder Response Program, a comprehensive training designed to equip individuals with life-saving strategies to effectively respond to an active shooter scenario. This program goes beyond basic "run, hide, fight" principles, enhancing these skills through hands-on training and practical exercises. Led by an experienced professional, this program will empower participants with the knowledge and confidence to protect themselves and others during critical moments.
